

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CLARTAN - EVOLUTION, Class I (LU1100077368)

a sub-fund of CLARTAN SICAV

Management Company: CLARTAN ASSOCIÉS

Objectives and investment policy

Management objective: CLARTAN - EVOLUTION is a sub-fund that seeks, over a period of more than 5 years, to optimise the risk/reward trade-off compared to that of the main global stock markets (primarily those of OECD countries).

Benchmark: Given the discretionary investment style, the sub-fund does not have a relevant benchmark. The sub-fund is actively managed without reference to a reference index.

Investment policy: For the part of the sub-fund invested in equities, the investment policy is discretionary and bottom-up, which means that, when taking investment decisions, financial analysis of the companies takes precedence over the perception of the financial markets and the economic and political climate, which supports these decisions. The part of the portfolio not invested in equities will be invested in interest rate products, money market funds or cash.

The sub-fund invests 20% to 70% of its net assets in equities of listed companies (including a maximum of 20% of the net assets in equities of listed companies having their registered office in countries that are not members of the OECD) and up to 70% of its net assets in equities of companies outside the eurozone.

The sub-fund may occasionally invest up to 30% of its net assets in securities assimilated with equities or bonds, such as convertible bonds, bonds with warrants, priority dividend shares, investment certificates and equity securities.

The degree of equity exposure, after taking into account derivative financial instruments, may vary from 0 to 70%. Investment in shares is performed without any sectoral, capital or monetary restrictions.

The sub-fund may invest 0 - 80% of its net assets in bonds rated at least BBB by Standard & Poor's or equivalent. It may invest up to 10% of its net assets in high-yield bonds (with

ratings of less than BBB-), and up to 10% of its net assets in unrated bonds. The sub-fund may invest up to 10% of its net assets in UCITS and/or other UCI units, including money market funds.

The sub-fund may invest in futures and options financial derivatives traded on French and foreign regulated markets and on over-the-counter markets. The sub-fund may invest in equity, interest rate and currency risks. The sub-fund may take positions to hedge all or part of the portfolio and/or achieve a performance objective. The use of forward financial derivatives will not generate over-exposure and may result in the sub-fund's equity exposure ranging from 0 to 70%.

The expected proportion of the sub-fund's net asset value covered by total return swaps is less than 3%. Under normal market conditions, the maximum proportion of the sub-fund's net asset value covered by total return swaps is less than 10%.

Any investor who would like a more detailed description of the investment strategy and the assets used is invited to refer to the prospectus.

Income appropriation: capitalisation

Recommendation: More than 5 years. This sub-fund may not be appropriate for investors who plan to withdraw their money within this period.

Redemption of shares: The investor has the right to redeem his shares on demand. The dealing in shares is carried out on each common bank business day in Luxembourg and France. The attention of the investor is drawn to the fact that in exceptional circumstances, the possibility for the investor to request the redemption of his shares may be limited or suspended.

Risk and reward profile

What does this synthetic indicator mean?

The shares of Class I are classified in category 4 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.

The risk category has been determined on the basis of historical and simulated data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the sub-fund may shift over time.

The lowest category does not mean a risk-free investment.

Repayment of the initial investment is not guaranteed.

Which materially relevant risks are not adequately captured by the synthetic indicator?

Credit risk: The sub-fund may invest in fixed-income products. The credit risk represents

the risk that the issuer of a security may not be able to honour its commitments. Note that the sub-fund may invest in bonds only if they are rated AA or higher by Standard & Poor's or equivalent.

Counterparty risk: Represents the risk of default of a market participant, preventing it from honouring its commitments vis-à-vis your portfolio.

Risk of the impact of using financial techniques involving derivatives (excl. the systematic strategy of asymmetrically reducing exposure to equity risk, already taken into account in the risk indicator): the use of derivatives may give rise to significant upward or downward fluctuations in the net asset value over short periods.

Currency risk: The sub-fund may invest the majority and up to 100% of its assets in securities denominated in currencies other than the euro. Fluctuations in these currencies against the euro may have a negative impact on the sub-fund's net asset value.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment in the sub-fund is indicated in the corresponding section of the prospectus of the fund which is available at the Management Company and on the website www.clartan.com.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.46%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The charges paid by an investor are used to cover the running costs of the fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this fund.

The entry and exit charges shown correspond to a maximum percentage which might be deducted from the investor's capital invested into the fund. In some cases, the investor might

pay less. The investor may contact his financial adviser or intermediary to be informed on the actual entry and exit charges.

The conversion of part or all of the shares into shares of another sub-fund or another share class is free of charge.

The ongoing charges relate to the annual charges; they were calculated on 31.12.2019. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes:

- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

For further information concerning charges, please consult the heading "Commissions et frais à charge du compartiment" of the fund's prospectus, which is available at the registered office of the Management Company and on www.clartan.com.

Past performance

(1) The past performance shown until 2014 are those of Rouvier Evolution - class I (FR0011358159) created in 2012.

Past performance is not a reliable indicator of future performance.

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance was calculated in EUR.

The sub-fund was launched in 2015 by the merger of the French FCP Rouvier Evolution. This share class was created in 2015.
