CLARTAN - PATRIMOINE, Class D (LU1100077525)

a sub-fund of CLARTAN SICAV

Management Company: CLARTAN ASSOCIÉS

Objectives and investment policy

Management objective: CLARTAN - PATRIMOINE is a precautionary savings product that seeks to increase the capital invested over a period of more than 2 years, with the intention of preserving it.

Benchmark: Given the discretionary investment style, the sub-fund does not have a relevant benchmark. The sub-fund is actively managed without reference to a reference index.

Investment policy: For the part of the sub-fund invested in bonds, the investment policy is chosen depending on the maturity of the portfolio and the quality of the issuers. The part of the portfolio not invested in bonds is known as "bottom-up", which means that the financial analysis of bond and share issuers takes precedence for investment decisions over the perception of the financial markets and the economic and political environment, which supports the decisions.

The sub-fund invests:

- between 70% and 100% of its net assets in debt securities and money market instruments, of which at least 70% of its net assets are in bonds rated at least BBB- by Standard & Poor's or equivalent, denominated in euros. The sensitivity of the bond portfolio will be between 0 and 10;
- up to 30% of its net assets in shares of companies listed without sector or capitalisation restrictions, provided that the shares are listed on the regulated markets of OECD countries, in bonds issued in OECD countries with a rating below BBB- and at least B- by Standard & Poor's or equivalent and particularly in corporate bonds or index-linked bonds with no ma-

turity constraints, in securities assimilated with shares or bonds, such as convertible bonds, bonds with warrants, priority dividend shares, investment certificates, equity securities and Negotiable Debt Securities issued in OECD countries, and, more specifically, indexed debt securities.

The sub-fund may invest up to 10% of its net assets in UCITS and/or other UCI units, with a maximum of 5% in money market funds for cash balance management.

The sub-fund may, from time to time, buy or sell options and forward financial derivatives:

- to protect them against drops in the equity or foreign exchange markets;
- to improve their performance by seeking out a better purchase or sales rate.

Exposure will be limited to 100% of the assets.

Any investor who would like a more detailed description of the investment strategy and the assets used is invited to refer to the prospectus.

Income appropriation: distribution

Recommendation: More than 2 years. This sub-fund may not be appropriate for investors who plan to withdraw their money within this period.

Redemption of shares: The investor has the right to redeem his shares on demand. The dealing in shares is carried out on each common bank business day in Luxembourg and France. The attention of the investor is drawn to the fact that in exceptional circumstances, the possibility for the investor to request the redemption of his shares may be limited or suspended.

Risk and reward profile

What does this synthetic indicator mean?

The shares of Class D are classified in category 3 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.

The risk category has been determined on the basis of historical and simulated data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the sub-fund may

shift over time.

The lowest category does not mean a risk-free investment.

Repayment of the initial investment is not guaranteed.

Which materially relevant risks are not adequately captured by the synthetic indicator?

Risk of the impact of using financial techniques involving futures instruments: the use of derivatives may give rise to significant upward or downward fluctuations in the net asset value over short periods.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment in the sub-fund is indicated in the corresponding section of the prospectus of the fund which is available at the Management Company and on the website www.clartan.com.
