Competent Authority: The Autorité des Marchés Financiers (AMF) is responsible for supervising the manufacturer in relation to this Key Information Document.

Date of production 19/02/2025

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The CLARTAN - ETHOS ESG EUROPE SMALL & MID CAP sub-fund seeks, over a period of more than five years, to achieve a positive performance in absolute terms and to outperform the main European indices (small & mid cap) denominated in EUR, by applying the SRI principles established by Ethos, the sub-fund's advisor in this area.

Ethos delimits the investment universe to include companies that manage with conviction their environmental, social and governance issues and who tend to have a positive impact on the environment and society as a whole and this based on ESG criteria, an assessment of their climate change strategy and an assessment of the positive contribution their products and services make to overcoming current environmental and social challenges.

The sub-fund applies Ethos's "principles for socially responsible investment" in terms of exclusion, controversy, ESG rating, exercising voting rights and engagement in dialogue with shareholders. The implementation of these principles results in the initial investment universe being reduced by at least 30% (approximately 600 European small- and mid-cap stocks) and makes it possible to qualify the investment universe as "Responsible".

The sub-fund's management committee applies an investment discipline based on qualitative criteria (the sustainability of profitability) as well as on specific valuation criteria (determine the discount required to invest). For this reason, the sub-fund will be invested as follows:

- at least 75% in listed companies having their registered office in an EEA Member State.
- at most 25% in listed companies having their registered office in non-member states of the EEA but that do belong to the Council of Europe.
- exclusively in shares of listed companies with a capitalisation of less than €20 bn at the time the company enters the sub-fund's portfolio.
- at most 8% in cash or money market instruments.

Investment in shares is performed without any sectoral or monetary restrictions. The sub-fund refrains from using derivative financial instruments, with the

exception of foreign exchange contracts which are allowed to hedge short-term exposure in currencies when buying or selling securities in a currency other than the reference currency of the sub-fund. For more details, please refer to the prospectus.

Benchmark: No relevant benchmark index, however, the Morningstar Developed Europe Mid Cap Target Market Exposure net return index, denominated in EUR, may be used as an index for information purposes.

Intended investor

This product is for investors seeking income and capital growth in the medium-to long-term (at least 5 years). The investor may incur losses up to the amount invested. This product is suitable for investors with basic and deep knowledge and experience of the product and global equity markets.

Other information

ESG categorisation of the sub-fund : Article 8 of the SFDR

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.clartan.com. The prospectus and the periodic reports are prepared for the entire fund and are available in French. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2020 and this share class in 2020.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Liquidity risk. Non-financial risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years Example investment: 10,000 EUR			
		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,910 EUR	2,250 EUR
	Average return each year	-80.9 %	-25.8 %
Unfavourable	What you might get back after costs	7,610 EUR	8,950 EUR
	Average return each year	-23.9 %	-2.2 %
Moderate	What you might get back after costs	10,490 EUR	12,650 EUR
	Average return each year	4.9 %	4.8 %
Favourable	What you might get back after costs	14,780 EUR	16,910 EUR
	Average return each year	47.8 %	11.1 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween December 2021 and December 2024.

Moderate scenario: This type of scenario occurred for an investment between August 2015 and August 2020, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between June 2016 and June 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if CLARTAN ASSOCIÉS is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	192 EUR	1,201 EUR
Annual cost impact (*)	1.9 %	1.9 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.7% before costs and 4.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Maximum 0.0% of the subscribed amount allocated to entities and agents actively involved in the marketing and placement of shares.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.6% of the value of your investment per year. This is an estimate based on actual costs over the last year.	159 EUR
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	33 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to contact@clartan.com, by letter to 11 avenue Myron Herrick – 75008 Paris, by phone calling the number +33 1 53 77 60 80.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.clartan.com.

We recommend that you send your complaint by post with acknowledgement of receipt to the Head of Compliance and Internal Control.

Other relevant information

The prospectus, the latest version of the Key Information Document as well as the latest annual and semi-annual report, may be obtained free of charge on www.clartan.com.

Past performance and previous performance scenarios: Historical returns for the last 4 years and previously published performance scenarios, updated on a monthly basis, are available on <https://www.yourpriips.eu/site/76921/en>.

Where this product is used as the support for a unit-linked life insurance or capitalisation policy, additional information on this policy, such as the costs of the contract, which are not included in the costs set out in this document, how to submit a claim and what happens if the insurance company defaults, is set out in the key information document for this policy, which must be provided by your insurer or broker or any other insurance intermediary in accordance with its legal obligations.
