

GLOBAL STRATEGY

The fund invests in a responsible and sustainable manner in European small and mid-sized companies. Over a period of at least five years, it aims to increase the value of invested capital and to outperform the main European euro-denominated small and mid-cap indexes. The fund is at least 92% invested in equities from countries that are member states of the Council of Europe.

MONTHLY MANAGEMENT COMMENTS

At 30 April, 99% of our assets were invested in equities, including circa 50% in positive-impact companies. April was marked by the new tariffs introduced by the United States. The announcements sent stock markets plummeting before the first signs of easing enabled them to begin a rebound. The fund's small and mid-caps gained 0.8% over the month.

During the month, we sold Tecan and initiated a position in VAT Group. We also took profits on Biomérieux, Euronext, GEA, Hera and Pearson, and strengthened Moncler, DormaKaba and Geberit.

SYNTHETIC RISK INDICATOR (SRI)

Risk Scale from 1 (lowest risk) to 7 (highest risk), category 1 does not mean the investment is risk free. The risk category of this Fund is not guaranteed and may change over time. The risk level derives from the exposure of the sub-fund to equity markets.

MAIN RISK FACTORS

EQUITY MARKETS, CAPITAL LOSS, CURRENCY, NON FINANCIAL, LIQUIDITY

The SICAV's investments on ESG criteria may lead to deliberate restrictions being applied to the potential investment universe. The application of these non-financial criteria may result in foregoing investment opportunities, underweighting certain holdings or concentrating the portfolio. In addition, the adoption of ESG criteria, while it supports long-term sustainability, could reduce returns in the short term if the SICAV is obliged to dispose of a holding on the basis of non financial changes despite its financial performance.

The «Clartan Ethos ESG Europe Small & Mid Cap» fund was awarded the *Investissement Socialement Responsable* (ISR) label on 3rd October 2023. This label was created in 2016 by the French government to distinguish funds that apply a robust socially responsible investment (SRI) methodology, leading to concrete and measurable results. The *ISR* label is awarded for a renewable period of three years.

Among the indicators monitored in the sustainability report, the four E (Environment), S (Social), G (Governance) and HR (Human Rights) indicators selected for ISR certification are :

- E : breakdown of companies with targets or commitments in line with the «Science-based Target» initiative, by number of companies
- S : average gender pay gap within companies
- G : gender diversity on the board of directors
- HR : number of companies without a human rights policy.

The indicators are published monthly.
